DIGITAL MARKETING IS THE FUTURE, HOW?

By the report of Statista, In 2020, India had nearly 700 million internet users across the country. This figure is projected to grow to over 974 million users by 2025

India was ranked as the second largest online market worldwide in 2019, coming second only to China

Cheap availability of mobile data, and affordable smartphones have led to a wide user base in India.
